## Prosperity Shown By Payment Of Mortgages

Three times as many mortgages are being paid off in Shelby county now, as were taken up a year ago. The general financial condition probably is shown best by the fact that records in the office of Murray Stewart, county register, indicate a steady climb in payment of mortgages, and in transfers of the title of real estate.

## MISSISSIPPI PLANTER MAKES POOR LAND PAY

YAZOO CITY, Miss., Oct. 31. (Sp.)—R. W. Martin, of the Mechanicsburg neighborhood, through the following of the county agricultural agent's advice in the matter of planting and cultivating his cotton, made land which cost him less than \$20 an acre a few years ago produce him a net profit this year of approximately \$118 an acre. And his cotton, on what was the worst land in the neighborhood, produced on the eight-acre tract, as well as any 25 acres of his neighbors.

Mr. Martin is one of the county's most progressive farmers and he has been conducting experiments as recommended by the state and federal agricultural authorities for some time. A few years ago he was offered a tract of 150 acres adjoining his farm for \$750. He bought the tract despite the fact that it was wholly old, worn-out soil. Twenty acres of it was so poor that he thought best not to try its cultivation and he turned it out to pasture. Lospedez soon covered the 20 acres.

This year Mr. Martin decided to try to bring eight acres of this 20 back into cultivation through recommended methods of reclaiming land. He plowed deep, cultivated shallow and took good care of the cotton, and the eight acres produced four and a half bales, which will easily bring him 45 cents a pound. He spent a total of about \$1,000 in the production of the crop and figures his costs and profits as follows:

At a price of \$2.50 a day for himself and his son while they worked on the cotton labor cost him \$108, picking \$67, ginning and marketing \$50; a total of \$225 in cost. The cotton will bring \$1,010, plus \$150 for seed, making a total of \$1,160, and making a net profit on the eight acres of \$935.

## FRENCH CHIEF FINES TOWN FOR DISORDERS

MATENCE, Oct. 31. (French Wireless Service)—Gen. Degoutte, the French commander, has imposed a fine of 60,000 marks on the town of Kaiserslautern in the Saar region, because of recent disorders in that locality fomented by German political agents. One of the agents is said to have been identified as having created disturbances in various non-occupied German towns. The manifesto of Gen. Degoutte imposing the fine says the French authorities will tolerate no movement of a revolutionary character.

A dispatch from Paris Oct. 16 said that during a demonstration at Kaiserslautern a French officer commanding a detachment was seriously wounded. The dispatch added that French soldiers opened fire on the mob, killing one person and wounding several.

## BRITAIN HAS PLAN FOR PRIZE BOND ISSUE

LONDON, Oct. 31.—The treasury has drafted a scheme for a prize bond issue, according to the Daily Mail. Mr. Chamberlain favors the scheme, which has been drawn up in anticipation that parliament will declare for it, the newspaper adds.

Mr. Chamberlain stated in the house of commons yesterday that he did not object to a parliamentary inquiry into the advisability of a lottery loan or prize bonds, after which a number of members signed a memorial to the chancellor of the exchequer, urging the immediate launching of a prize bond scheme. They expressed themselves as convinced that it would meet with a tremendous response, appeal to the prevailing speculative tendency and keep in the country money which might otherwise be diverted to French lottery bonds.

## TO PROTECT COINAGE.

## PERUVIANS MENACE CHILEAN FRONTIER

VALPARAISO, Chile, Oct. 31. (By Associated Press).—The recent excitement regarding possible aggressive designs by Peru against Chile now is accounted for by the arrival of Peruvian soldiers at Moquegua, Peru, less than 20 miles from the Chilean frontier. The presence of the troops, which aroused the suspicion of the Chilean authorities and inspired the departure of Chilean warships to the vicinity of the northern frontier, is explained as a measure of President Leguia to remove from the capital troops of whom he felt he was doubtful. The Chilean battleship Captain Prat is about to sail for Mejillones, in Northern Chile.

SANTIAGO, Chile, Oct. 31.—Newspaper reports received indirectly from La Paz, Bolivia, state that insistent rumors are in circulation there that Peruvian troops have invaded North Chilean territory. The Chilean foreign minister and other officials who have been questioned by the correspondent of the Associated Press sharply deny any such invasion has taken place. They say the Chilean government is amply prepared to deal with any such contingency and that an attempt of such a nature should be impossible.
